NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in Thousands)

(Unaudited)

BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. Results of operations for the interim periods are not necessarily indicative of the results that may be expected for the full year. The consolidated financial statements should be read in conjunction with the financial statements and notes thereto as of July 28, 2001 and for the year then ended filed on a form 8-K dated April 5, 2002.

The accounting policies followed by the Company are set forth in Note 1 to the Company's consolidated financial statements for the year ended July 28, 2001. The financial statements of the consolidated subsidiary Villa are denominated in Euros and are translated into U.S. dollars for reporting purposes. As a result, they are therefore subject to the effects of currency fluctuations which may affect reported earnings and future cash flows. These foreign currency translations are made in accordance with SFAS No. 52, "Foreign Currency Translation."

NEW ACCOUNTING PRONOUNCEMENTS

During July 2001, the FASB issued SFAS No. 141, Business Combinations, and SFAS No. 142, Goodwill and Other Intangible Assets. SFAS No. 141 requires the use of the purchase method of accounting for all business combinations initiated after June 30, 2001. Additionally, this statement further clarifies the criteria for recognition of intangible assets separately from goodwill for all business combinations completed after June 30, 2001, as well as requiring additional disclosures for business combinations. SFAS No. 142 requires that goodwill acquired after June 30, 2001 no longer be subject to amortization over their estimated useful lives. Beginning on August 3, 2002, amortization of goodwill will no longer be permitted and the Company will be required to assess these assets for impairment annually, or more frequently if circumstances indicate a potential impairment. Furthermore, this statement provides specific guidance for testing goodwill for impairment. Transition-related impairment losses, if any, which result from the initial assessment of goodwill and certain intangible assets would be recognized by the Company as a cumulative effect of accounting change on August 3, 2002. The Company has not yet determined the impact, if any, that the adoption of SFAS No. 142 will have on its consolidated financial statements.

SFAS No. 143, Accounting for Asset Retirement Obligations, was issued in June 2001. This statement addresses financial accounting and reporting for the obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. This statement is effective for financial statements issued for fiscal years beginning after June 15, 2002. The Company has not yet determined the impact, if any, that the adoption of this statement will have on its consolidated financial statements.

SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, was issued in October 2001. SFAS No. 144 replaces SFAS No. 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of. SFAS No. 144 requires that long-lived assets whose carrying amount is not recoverable from its undiscounted cash flows be measured at the lower of carrying amount or fair value less cost to sell, whether reported in continuing operations or in discontinued operations. Therefore, discontinued operations will no longer be measured at net realizable or include amounts for operating losses that have not yet occurred. SFAS No. 144 also broadens the reporting of discontinued operations to include all components of an entity with operations that can be distinguished from the rest of the entity and that will be eliminated from the ongoing operations of the entity in a disposal transaction. The provisions of SFAS No. 144 are effective for financial statements issued for fiscal years beginning after December 15, 2001 and are to be applied prospectively. The Company has not yet determined the impact, if any, that the adoption of this statement will have on its consolidated financial statements.

INVENTORY

Inventory is stated at the lower of cost (first-in, first-out) or market. Inventories and their effect on cost of sales are determined by physical count for annual reporting purposes and are estimated by management for interim reporting purposes. The estimation methodologies used for interim reporting purposes are described in management's discussion and analysis under the subtitle Critical Accounting Policies.

	January 26, 2002	July 28, 2001
Raw materials and purchased parts	\$ 12,283	\$ 13,671
Work-in-process	11,988	15,069
Finished goods	3,487	3,986
	27,758	32,726
 Less allowance for obsolete and excess inventory	 (3,483)	 (5,198)
 Total inventory, net	 \$ 24,275	 \$ 27,528

COMPREHENSIVE LOSS

Comprehensive loss for the Company includes foreign currency translation adjustments and net loss reported in the Company's Consolidated Statements of Operations.

Comprehensive loss for 2002 and 2001 was as follows:

	For the Three Months Ended	
	January 26, 2002	January 27, 2001
Net Loss	\$(171)	\$(1,466)
Foreign currency translation adjustments	(56)	212
Comprehensive loss	\$ (227)	\$ (1,254)
	For the Six Months Ended	
	January 26, 2002	January 27, 2001
Net Loss	\$(1,706)	\$(1,842)
Foreign currency translation adjustments	143	54
Comprehensive loss	\$(1,563)	\$ (1,788)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

CONTINGENCIES

Security and Exchange Commission ("SEC") Investigation - On December 11, 2000, the Division of Enforcement of the SEC issued a formal Order Directing Private Investigation, designating SEC officers to take testimony and requiring the production of certain documents, in connection with matters giving rise to the need to restate the Company's previously issued financial statements. The Company has provided numerous documents to and continues to cooperate fully with the SEC staff. In connection with the ongoing SEC investigation, there is a possibility that the SEC will assess some monetary fine against the Company in connection with the accounting practices under review. The likelihood or the dollar amount of such a fine or penalty is unknown at this time. Management of the Company cannot predict the duration of such investigation or its potential outcome.

Class Action Litigation - A consolidated class action complaint against the Company, certain of its former officers and directors and its auditors was filed in the United States District Court for the Southern District of New York. The complaint alleged violations of the federal securities laws and sought to recover damages on behalf of all purchasers of the Company's common stock during the class period November 6, 1997 to November 6, 2000. The complaint sought rescission of the purchase of shares of the Company's Common Stock or alternatively, unspecified compensatory damages, along with costs and expenses including attorney's fees.

On July 26, 2001, the Company and certain other defendants reached an agreement in principle to settle the complaint. Under the terms of the settlement, the Company will provide the plaintiffs: (i) a \$2,000,000 subordinated note due five years from the date of issuance with interest in arrears accrued at 6% per annum; (ii) 2.5 million shares of the Company's common stock; and, (iii) 1 million warrants to purchase the Company's Common Stock at \$2 per share. The Warrants are callable by the Company at \$0.25 per share if the Company stock trades at a price in excess of \$4 for 10 days or more. This settlement was approved by the United States District Court for the Southern District of New York on January 29, 2002.

Management of the Company believes the terms of the agreement in principle provided a reasonable basis to estimate the value of the Company's portion of the settlement as of July 28, 2001 and, accordingly, recorded a charge of \$9,759,000 in fiscal year 2001. This amount was calculated using a discount factor of 12% to present value the subordinated note, the per share price of \$1.50 that was the closing price of the Company's stock in the over the counter market on July 28, 2001, and an option pricing model to value the warrants. Also included in the charge are legal and other specialized fees incurred through July 2001 of \$3,572,000 and an accrual of legal and related fees to be incurred in the future of \$821,000.

When the Court approved the class action settlement on January 29, 2002, and opportunities for appeal expired on March 21, 2002, all uncertainty regarding the final value of the securities issued by the Company in the settlement had been eliminated. Therefore, in the Third Quarter of Fiscal Year 2002, the Company will recognize an additional charge related to the increase in the value of the common stock and warrants from July 28, 2001, to January 29, 2002. This additional charge will be approximately \$7,000,000.

Department of Defense Investigation-On March 8, 2002, RFI Corporation, a subsidiary of the Company and part of the Power Conversion Group segment, was served with a subpoena by the US Attorney Eastern District of New York. RFI supplies noise suppression filters for communications and defense applications. A portion of RFI's sales is to prime contractors to the US Government, and approximately 14% to 17% of RFI's sales over each of the last three years has been sales directly to the Department of Defense ("DoD"), Defense Supply Centers ("DSC") or to the US Armed Forces.

DEL GLOBAL TECHNOLOGIES CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The Company believes that the DoD has launched an investigation into RFI's quality control practices and record keeping. In addition, the DoD appears to be investigating other suppliers, some of whom may be distributors who sell many different components to the DoD, including some parts that may be manufactured by RFI.

The Company is fully cooperating with this investigation, and has retained special counsel to represent the Company on this matter. Management of the Company cannot predict the duration of such investigation or its potential outcome.

Employment Matters - The Company had an employment agreement with the former Chief Executive Officer through July 2005. The agreement provided a minimum base salary, deferred compensation and bonuses, as defined. The Company accrued deferred compensation at a rate of 5% of pretax income with a minimum of \$100 and a maximum of \$125.

In the third quarter of fiscal 2001, the employment of the former Chief Executive Officer was terminated. In connection with the termination of the former Chief Executive Officer's employment, there is a possibility of the former Chief Executive Officer making certain claims under his employment agreement. The Company believes that it has substantiated counterclaims that it could assert in any such action and, therefore, believes that its exposure to such a potential claim is not material to the Company's consolidating financial statements.

In order to protect and assert the counter claims referred to above, the Company filed a lawsuit against the former Chief Executive Officer in the United States District Court, Southern District of New York, alleging fraudulent and other wrongful acts, including securities law violations, fraudulent accounting practices, breaches of fiduciary duties, insider trading violations and corporate mismanagement. The complaint seeks damages in excess of \$15 million.

The former Chief Executive Officer has not yet filed an answer but is expected to counterclaim for damages based on the termination of his employment by the Company, and may seek damages in excess of \$3 million. The Company intends to pursue vigorously its claims against the former Chief Executive Officer and believes it has meritorious defenses to the expected counterclaims.

The Company has entered into an employment agreement with its new Chief Executive Officer for the period July 2001 to April 2004. The terms of this agreement provide base salary, bonuses and deferred compensation. The new Chief Executive Officer may earn a bonus, which will be based on a percentage of his base salary, if certain performance goals established by the board are achieved. The new Chief Executive Officer's agreement provides that the new Chief Executive Officer will have the option to defer a portion of his bonus. In addition, the new Chief Executive Officer's employment agreement provides for certain payments in the event of death, disability or change in the control of the Company.

Other Legal Matters - The Company is a defendant in several other legal actions arising from normal course of business. On the advice of counsel, management believes the Company has meritorious defenses to such actions and that the outcomes will not be material to the Company's consolidated results of operations or consolidated financial condition.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Management Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements. Such statements involve various risks that may cause actual results to differ materially. These risks include, but are not limited to, the ability of the Company to grow internally or by acquisition and to integrate acquired businesses, changing industry or competitive conditions, and other risks referred to in the Company's registration statements and periodic reports filed with the Securities and Exchange Commission.

Overview

As noted earlier in the Contingencies note to the interim financial statements, the SEC is conducting a formal investigation in connection with the Company's financial consolidated statements issued in fiscal year 2000 and previous years. Prior to this current 10Q filing, the Company last made a 10Q filing in June 2000 for the quarter ended April 29, 2000. In April of 2002, the Company filed audited financial statements for Fiscal year 2001 and an audited Balance Sheet as of July 29, 2000 as exhibits to a Form 8-K. This current 10Q filing is a new filing for quarterly periods subsequent to July 29, 2000 and includes quarterly data not previously reported in a Form 10Q filing.

During the fourth calendar Quarter of 2002, the Company will attempt to file an Annual Report on Form 10K for fiscal 2002. This filing will include operating results for Fiscal 2002 and 2001, and the Company will attempt to include operating results for Fiscal 2000, and a restatement of operating results for Fiscal 1997 through 1999. No assurance can be given that the Company will be successful in this effort to complete financial statements for the Fiscal 2000 period, or the restatement of past periods.

In the future, the Company expects to be able to file timely quarterly reports.

Despite the Company's legal and regulatory problems, the Company's main businesses continue to compete vigorously and Del continues to enjoy solid relationships with its customers. The withdrawal of a major medical systems group competitor is expected to contribute to increased orders and sales for the Medical Imaging Group. Del's Power Conversion Group has been selected as a supplier of high voltage power systems by the two FAA qualified manufacturers of Explosive Detection Systems ("EDS") for checked baggage.

CRITICAL ACCOUNTING POLICIES

Significant accounting policies are outlined in the footnotes to the Company's annual financial statements referred to above, and the financial statements included in this 10Q should be read in conjunction with those annual financial statements and related footnotes. In addition to those accounting policies outlined in the Company's annual financial statements for the year ended July 28 2001, the Company also uses certain estimates in determining interim operating results. The most significant estimates in interim reporting relate to the valuation of inventories. For certain subsidiaries, for interim periods, the Company makes an estimate of the amount of labor and overhead costs attached to finished goods inventories. As of July 28 2001, finished goods represented approximately 15% of the net carrying value of the Company's total net inventory. In addition, at one subsidiary, the valuation of all inventories at an interim period end is valued on a gross margin roll-forward method. In most quarters, the value of this subsidiary's inventory represents approximately 15% of the Company's net carrying value of inventory (excluding that subsidiary's finished goods, which would be included in the discussion above regarding finished goods). Management believes the estimation methodologies used in both these cases to be appropriate.

DEL GLOBAL TECHNOLOGIES CORP. AND SUBSIDIARIES

Consolidated Results of Operations

Net sales for the Q2 of 2002, three months ended January 26, 2002, were approximately \$ 24.4 million as compared to approximately \$ 23.2 million for the three months ended January 27, 2001, an increase of 5%. Del's Medical Imaging business accounted for all of that year on year one-quarter sales increase (up \$2.6 million versus the previous year's Q2), offset by a decline in sales at Del's Power Conversion Group. Net sales for the six months ended January 26, 2002 were approximately \$43.9 million as compared to approximately \$45.4 million for the six months ended January 27, 2001, a decrease of 3%. This decrease is due to lower sales in its Power Conversion Group and Medical Imaging Systems segments of \$1.1million and \$300,000 respectively.

Gross Margins in Q2 of Fiscal 2002 versus 2001 improved from 19% to 26%. Gross Margin improvements were achieved at both the Power Conversion Group and the Medical Imaging Group. The improvement in the Power Conversion Group resulted from product mix improvements, despite a sales decline. The Gross Margin improvements in the Medical Imaging Group were achieved both in North America (principally due to improved pricing) and in Villa, its Italian subsidiary, (principally due to increased volume) .Gross margins for the six month period were also improved year to year, 23% versus 19%, principally due to increased margins at the Medical Imaging Systems segment.

Research and development expenses were approximately \$ 625,000 and \$1.2 million for the three and six month periods of fiscal 2002 versus \$ 815,000 and \$1.5 million for comparable fiscal 2001 periods. Despite reduced spending for research and development for the three and six month periods compared to the same periods in 2001, the Company continues to invest in research and development but allocates resources more judiciously in projects that it expects will lead to new products and increased profits.

Selling, general and administrative expenses were approximately \$5.4 million and \$4.5 million for three-month periods ended January 26, 2002 and January 27, 2001, respectively. Selling, general and administrative expenses were approximately \$10.7 million for the six months ended January 26, 2002 as compared to approximately \$8.3 million in the comparable period in fiscal 2001. The increase of selling, general and administrative costs was due to increased audit and specialized accounting fees.

Litigation settlement costs are not expected to be significant going forward in fiscal 2002, but the Company will be reporting significant expenses in the third and fourth quarters of 2001 as it did in the second quarter of 2001. The Company recognized additional facilities reorganization costs (\$35,000 and \$77,000 for the three and six month's periods in 2002) from the finalization of severance arrangements from the shutdown of its Dynarad plant. . In Del's third Quarter of Fiscal 2002 (ended April) the Company will recognize a \$7 million non cash charge associated with the finalization of the class action litigation settlement in Q2 of Fiscal 2002.

Net interest expense was approximately \$325,000 for the three months ended January 26, 2002 as compared to approximately \$224,000 for the corresponding period in the prior year. Net interest expense was approximately \$787,000 for the six months ended January 26, 2002 as compared to approximately \$491,000 for the corresponding period in the prior year. These increases are due to higher interest rates and higher levels of debt for both periods.

Income tax benefits were approximately 35% of pretax loss for the three and six months ended January 26, 2002 and approximately 38% for the three and six months ended January 27, 2001.

The net loss of \$171,000 was significantly lower for the current three-month period of fiscal 2002 when compared to a loss of \$1.5 million for the comparable period in fiscal 2001 due to higher gross margins. The net loss was approximately \$1.7 million for the six months ended January 26, 2002, very similar to the loss recognized of \$1.8 million for the prior corresponding period. Gross margin increases and the lack of litigation settlement charges were offset by increased selling, general and administrative expenses.

DEL GLOBAL TECHNOLOGIES CORP. AND SUBSIDIARIES

Basic and Diluted loss per share for the three months ended January 26, 2002, \$(.02), compares with a loss of \$(.19) for the period ended January 27, 2001. Increased gross margins and the absence of litigation costs improved results and led to a lower loss for the period.

Basic and Diluted Loss per share for the six- month period ended January 26, 2002 was \$(.22) compared with \$(.24) for the prior year six months. Higher margins and less litigation settlement costs were offset by increased selling, general and administrative expenses as well as higher interest charges.

The weighted number of common shares outstanding was unchanged as there were no stock transactions for the period. No additional shares were issued or retired during the period. Therefore, shares used for calculating loss per share was unchanged from the previous period at 7,847,515. Basic and fully diluted shares are the same for all periods reported.

FINANCIAL CONDITION

Liquidity and Capital Resources

The Company has funded its operations through a combination of cash flow from operations and bank borrowings.

Working Capital - At January 26, 2002 and July 28, 2001, the Company's working capital was approximately \$ 20.3 million and \$22.3 million, respectively. At such dates the Company had approximately \$1.9 million and \$1.4 million, respectively, in cash and cash equivalents. The Company has reduced its short-term and callable debt by approximately \$2.6 million since July of 2001.

Trade receivables decreased approximately \$ 1.6 million at January 26, 2002 as compared to July 28, 2001. Inventory at January 26, 2002 also decreased approximately \$ 3.2 million as compared to July 28, 2001.

Credit Facility and Borrowing -As a result of the delay in issuing the July 29, 2000 financial statements, the Company is not in compliance with the terms of its U.S. credit agreement, and the amounts outstanding under such agreement (\$7.8 million at January 26, 2002 and \$8.5 million at July 28, 2001, respectively), are callable by the lenders. The Company's U.S. subsidiaries' cash and investment balances at January 26, 2002 are not sufficient to fund the repayment of the amounts owed under the U.S. subsidiaries' debt agreement.

On March 21, 2002, the Company signed a commitment letter for working capital financing with a replacement lender. This new credit facility is for \$10 million. Conditions for closing of this new credit facility are customary for these types of agreements, and management believes that it will be able to close this new financing during the fourth quarter of fiscal 2002.

The Company anticipates that cash generated from operations and amounts available from its new credit facility will be sufficient to satisfy its currently projected operating cash needs.

Capital Expenditures -The Company continues to invest in capital equipment, principally for its manufacturing operations, in order to improve its manufacturing capability and capacity. The Company has expended approximately \$710,000 for capital equipment for the six-month period ended January 26, 2002.

DEL GLOBAL TECHNOLOGIES CORP. AND SUBSIDIARIES

Shareholders' Equity -Shareholders' equity has declined to approximately \$ 40.3 million at January 26, 2002 from approximately \$41.8 million at July 28, 2001, due to the loss reported for the period.

Obligation to issue Shares and Warrants - The Company's Obligation to issue shares and warrants included in the shareholder's equity section, reflect the terms of the settlement reached in July 2001 in connection with a class action complaint brought by shareholders against the Company and other parties. As a result of the settlement, the Company is obligated to issue subordinated notes, shares and warrants to certain shareholders. The equity portion of the settlement totaled \$4,410,000 and appears as "Obligation to issue Shares and Warrants" in the consolidated balance sheet. Common shares were valued at \$3,750,000 and warrants at \$660,000. These shares and warrants were revalued at January 29, 2002 when final court approval was obtained with a resulting increase in value of \$7,000 resulting in a non-cash charge in the third quarter of fiscal 2002.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Historically and as of January 26, 2002, the Company has not used derivative instruments or engaged in hedging activities. The Company is exposed to foreign currency and interest rate risks. The Company's 80% owned Italian subsidiary maintains its financial records in Euros and converts them to US Dollars.
