DEL GLOBAL TECHNOLOGIES ANNOUNCES DISTRIBUTION AGREEMENT  
WITH AFP IMAGING CORPORATION

VALHALLA, NY - July 27, 2005 -- Del Global Technologies Corp. (DGTC) ("Del Global" or "the Company") today announced that its subsidiary, Del Medical Imaging Corp. ("DMI"), has entered into a two-year agreement with AFP Imaging Corporation ("AFP") under which AFP will exclusively sell, install and service the DMI manufactured Universal(TM) and VetTek lines of veterinary x-ray systems worldwide.

These systems produce and capture large format (up to 14" x 17") images in either state-of-the-art digital or x-ray film based modalities. They are adaptable to fit most any office, need or budget, while providing superior image quality across a wide range of large and small animal studies.

Walter Schneider, Chief Executive Officer of Del Global, commented, "The Universal and VetTek x-ray systems have strong brand awareness and a long history of success, while AFP has established a ten-year history in the veterinary marketplace with film and digital dental x-ray products. AFP will combine current Universal dealers with its existing dealer network, resulting in a larger distributor base than is currently utilized by DMI. We believe that this will result in increased sales and market share for our products. As the migration from film-based systems to digital progresses, we also believe that DMI's products offer a compelling performance and value proposition."

David Vozick, Chairman of AFP said, "We are extremely pleased to enter into this relationship, and believe that it will produce results that are mutually beneficial to AFP and DMI. The veterinary field is in the early stages of transition from analog to digital systems, at the same time that discretionary spending for sophisticated, companion animal healthcare and diagnostics is becoming an increasingly important part of pet ownership in many parts of the world."

ABOUT DEL GLOBAL TECHNOLOGIES

Del Global Technologies Corp. is primarily engaged in the design, manufacture and marketing of cost-effective medical imaging and diagnostic systems consisting of stationary and portable x-ray systems, radiographic/fluoroscopic systems, dental imaging systems and proprietary high-voltage power conversion subsystems for medical and other critical industrial applications. Through its RFI subsidiary, Del Global manufactures electronic filters, high voltage capacitors, pulse modulators, transformers and reactors, and a variety of other products designed for industrial, medical, military and other commercial applications.

Statements about future results made in this release may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on current expectations and the current economic environment. Del Global cautions that these statements are not guarantees of future performance. These statements involve a number of risks and uncertainties that are difficult to predict, including, but not limited to: the ability of AFP and DMI to successfully execute this distribution agreement; the ability of Del Global to implement its business plan; retention of management; changing industry and competitive conditions; obtaining anticipated operating efficiencies; securing necessary capital facilities; favorable determinations in various legal matters; market and operating risks from foreign currency exchange exposures; and favorable general economic conditions. Actual results could differ materially from those expressed or implied in the forward-looking statements. Important assumptions and other important factors that could cause actual results to differ materially from those in the forward-looking statements are specified in the Company's filings with the Securities and Exchange Commission.
